OBJECTIVE

A fresh Computer Science graduate, with an excellent track record in the teaching sector over in Vietnam, and previous experience working in technology at Jaguar Land Rover. Seeking a company where I can use the current skills and knowledge gathered from university, to enhance them further, and combine them with the necessary experience required to develop a long-term career in the technology field. Currently, I'm located in England, but I'm more than willing to relocate to The Netherlands, where I hope to restart my journey in the technology sector.
